## 快美贴® 系列内装改色膜

Self-adhesive decoration film is a self-adhesive, peel and stick product based on PP or PVC substrates, featuring rich patterns and textured finishes. It is suitable for various substrate surfaces and offers the advantages of convenient installation, noiseless and dust-free application, along with environmental friendliness (formaldehyde-free).

改色膜是一种基于PP或PVC为基层，自带背胶即贴即用的产品，花色丰富并富有肌理感，适用于各类基层。具有施工便利，无噪音无粉尘，环保无甲醛的优点

## 阿波罗® 系列窗膜

Window film is a series of easy-to-apply products primarily based on PET substrates with self-adhesive backing. This category includes:

Heat-insulating films

Safety (anti-shatter) films

Decorative glass films

These products deliver effective enhancements in:

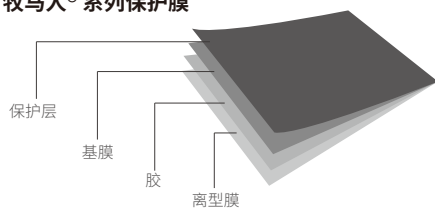

Building energy conservation

Sun protection

Aesthetic improvement

窗膜材料是由PET为主才带背胶易施工的系列产品，有隔热膜，防爆膜及玻璃装饰贴膜等产品组成。对建筑节能，防晒及装饰具有良好的改善作用

## 牧马人® 系列保护膜

Protection film is primarily a self-adhesive product made from PET, TPH, or TPU substrates. It is widely used for:

Scratch-resistant surface protection on furniture

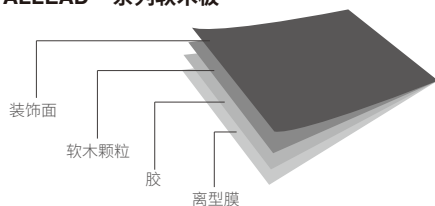

Anti-penetration shielding for kitchen countertops

Extending furniture lifespan

Facilitating daily maintenance

保护膜材料主要是由PET, TPH或TPU为基层的自带背胶产品，广泛应用于家具表面耐划伤保护，灶台防渗透保护，增加家具使用寿命并便利日常打理

## ALLEAD™ 系列软木贴

Cork-backed veneer is an innovative material featuring a cork core layer, a decorative surface film, and a self-adhesive backing. Key advantages include:

Lightweight & easy to cut/install

Diverse decorative finishes

Tolerant to subfloor imperfections

软木贴是基于软木为中间层，表面是装饰膜，背后为自粘胶的新型材料，具有轻便易切割易贴合的优点，花色众多，并且降低对基层平整度的要求

## 应用场景-快美贴® 系列内装改色膜

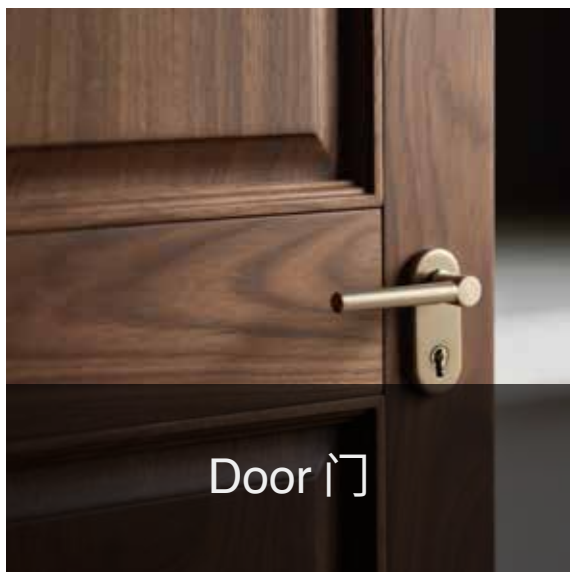

Upgrading existing walls or new constructions – delivering quick and easy application of decorative surfaces  
各类墙面的翻新改造及新建项目可视面装饰, 施工便利

Enable cost-effective refinishing for both flat and curved furniture surfaces, featuring economical reuse of existing furniture

平面及曲面家具的改色, 具有利旧, 即贴即用的优点

Suitable for surface renovation of various door types including interior doors, fire-rated doors, security doors, and entry doors

各类房门, 消防门, 防盗门, 入户门等表面装饰改造

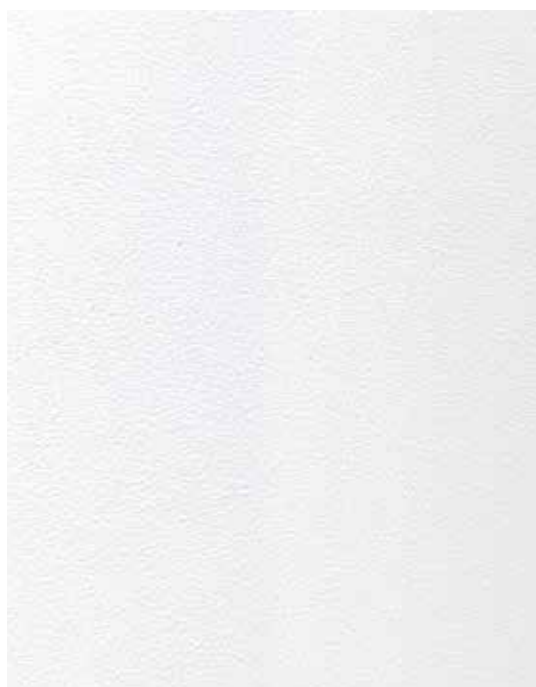

Extensively applied for aesthetic optimization of elevator car interiors and external doors, as well as decorative refurbishment of existing elevators
